DC TIG 200 HF

For high-frequency TIG welding and stick (MMA) welding.

PROPERTIES

The TIG 200 DC gives you full control of your HF TIG welding and delivers amazing results from start to finish. This dual-function TIG welding machine can weld stainless steel, mild steel in DC TIG mode, and Stick (MMA) weld in arc mode. With a portable 15A plug and HF TIG capability, it is a professional tool for any job site. High-frequency TIG (HF) welding gives you more control over the start and stops of the arc. The arc can be ignited without contact with the workpiece, reducing the risk of contamination of tungsten or welds.
